

M395 / M337A2

American Ordnance LLC, operator of the Iowa and Milan Army Ammunition Plants, produces the Projectile, 75mm & 105mm Blank ammunition for the U.S. Army and other State Department approved customers.

USE: This cartridge is used for salutes and simulated fire.

DESCRIPTION: The blank cartridge consists of a shortened cartridge case containing a black powder charge and primer. The shortened cartridge case is either brass, steel, or aluminum. Newly manufactured blank cartridges are assembled with a loose powder charge contained by the cartridge case with a press fit percussion primer. The powder is retained in the case by a fiberglass closing wad and a polystyrene closing cup glued in place with epoxy.

SPECIFICATIONS:

Length: 6.16
