

105mm Tank Ammunition

American Ordnance LLC, operator of the Iowa and Milan Army Ammunition Plants, produces a variety of 105mm Tank Cartridges for the U.S. Military and other State Department approved countries.

USE: The 105mm family of tank ammunition is extensive. Varieties include high explosive anti-tank, kinetic energy, high explosive plastic, canister, smoke and practice cartridges.

DESCRIPTION: 105mm cartridges have a steel cartridge case that is crimped to the projectile to form a fixed cartridge. An electric primer is utilized to initiate the propellant charge. 105mm cartridges are typically packaged to customer requirements using metal containers, fiber containers and wood box or fiber container and wire bound pallet.

105mm HEAT-T and APFSDS-T
