

M1028

American Ordnance LLC, operator of the Iowa and Milan Army Ammunition Plants, produces Cartridge 120mm M1028 Canister Tank ammunition for the U.S. Army and Marines.

USE: These provide armor units with a quick lethal option at ranges between 200 – 500 meters. The round can be used to clear dismounted enemy, break up ambushes, stop infantry attacks and support friendly assault operations.

DESCRIPTION: The 11kg payload consists of tungsten pellets. The cartridge has also been successfully tested against vehicles, structural walls and for obstacle reduction capabilities. Lethality has even been demonstrated on targets behind these structures.

SPECIFICATIONS:

Projectile: Canister w/ Tungsten Pellets
Propellant: JA2
Muzzle: 1410m/s

Tank, 120mm Canister Ammunition
