

# Stinger Missile (Warhead)

American Ordnance LLC, operator of the Iowa and Milan Army Ammunition Plants, can produce the STINGER warhead projectile for the U.S. Army, Marines, and other State Department approved customers.

**USE:** Provide close-in surface to air weapons fire for the defense of forward combat areas, vital areas, and installations against low altitude air attacks.

**DESCRIPTION:** The STINGER is a man-portable, shoulder-fired guided missile system which enables soldiers and Marines to effectively engage low-altitude jet, propeller-driven and helicopter aircraft. Developed by the United States Army Missile Command, the Stinger was the successor to the Redeye Weapon System. The system is a "fire-and-forget" weapon employing a passive infrared seeker and proportional navigation system.

**SPECIFICATIONS:**

Range : 1 – 8 km

Warhead: 3 kg

Stinger (Warhead)
